Subject Triangle Lake School was sprayed on Friday morning

Dear Chad,

Triangle Lake Schools was sprayed Friday morning still with no warning to the staff, parents, children, or neighbors. They were using small squirt bottles spraying the hacked bark. This does off-gas.

Please ask Mike Odenthal to investigate. I know that Eron King will also contact Mike this morning to ask for an investigation. I am still trying to find out about whether or not the timber production on school campus is legal. If it is not, then clearly this was a violation of the Arsenal Applicators Concentrate label. There is an issue of contamination of the School's well, the drinking water for the school, as well.

Thanks for your help with this matter.
